DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on August 26, 2003 is considered by the examiner.

Allowable Subject Matter

3. Claims 1-12 are allowed over the art of record.
4. The following is an examiner's statement of reasons for allowance:

Claims 1-12 recite, inter alia, an electronic component production method/a burn-in apparatus for subjecting an electronic component to burn-in, in which a load equivalent to a predetermined load defined by a burn-in temperature, a burn-in voltage, and a prescribed burn-in time is applied to the electronic component, said electronic component production method/burn-in apparatus comprising applying constant power to the electronic component to increase the temperature of the electronic component from the predetermined temperature to the burn-in temperature; and comparing an actual voltage which is applied to the electronic component at the burn-in temperature with the burn-in voltage, and correcting the prescribed burn-in time based on the difference therebetween to determine a corrected burn-in time, and applying the constant power to the electronic component for the corrected burn-in time.

Art Unit: 2829

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
